SEX!

Pathologizing Sex

Pathologizing Sex

Too Much...

Increase in goal-directed activity
...sexually

Not at
All...

Too Little...

DSM V : "The judgement of deficiency is made by the clinician"

Sexuality

WHO: What is Sexuality?

► a central aspect of being human throughout life and encompasses gender identities and roles, sexual orientation, eroticism, pleasure, intimacy and reproduction ... influenced by the interaction of biological, psychological, social, economic, political, cultural, legal, historical, religious and spiritual factors. (2006)

And Sexual Health

► a state of physical, emotional, mental and social well-being in relation to sexuality; it is not merely the absence of disease, dysfunction or infirmity. Sexual health requires a positive and respectful approach to sexuality and sexual relationships, as well as the possibility of having pleasurable and safe sexual experiences, free of coercion, discrimination and violence. (WHO 2006)

Talking about sex with us

A terrible history

Our sexuality and medication

Sexual dysfunction	Drugs implicated in sexual dysfunction
Amenorrhea [32 (38.55)]	Amisulpride (20), olanzapine (3), imipramine (1), paroxetine (1), risperidone (4), escitalopram (1), valproic acid (1), desvenlafaxine (1)
Galactorrhea [15 (18.07)]	Amisulpride (12), risperidone (2), haloperidol (1)
Decreased sexual desire [14 (16.86)]	Escitalopram (4), amitriptyline (3), clomipramine (2), risperidone (2), amisulpride (1), paroxetine (1), desvenlafaxine (1)
Erectile dysfunction [7 (8.43)]	Topiramate (1), escitalopram (2), risperidone (2), paroxetine (1), amisulpride (1)
Premature ejaculation [7 (8.43)]	Escitalopram (3), chlordiazepoxide (2), risperidone (2)
Menorrhagia [5 (6.02)]	Amitriptyline (3), olanzapine (1), risperidone (1)
Dry vagina [3 (3.61)]	Escitalopram (1), risperidone (1), haloperidol (1)

Violence

Stigma and Discrimination

Recover and Sexuality

A final word...

Please
Do
Not
Disturb

"The idea of people being sexually active and sexually enthusiastic as they get older is still met with disdain in our society, and there's a notable lack of good research and dissemination of reliable information to healthcare professionals and to people themselves"

Much of this talk was based on the work of Patricia Deegan
