

From Fragmented to Connected: Whole-Person Health Data in Action

April Simes – Snr Business Analyst MH Clinical Programs

Lisa Wilton – Advance Nurse Consultant MH GP Shared Care

**Government
of South Australia**

SA Health

We would like to acknowledge this land that we meet on today is the traditional lands of the Kurna people and that we respect their spiritual relationship with their country.

We also acknowledge the Kurna people as the custodians of the greater Adelaide region and that their cultural and heritage beliefs are still as important to the living Kurna people today.

Acknowledgement of Lived Experience

We recognise the strength and resilience of people living with mental health issues and their families.

Their voices are essential to improve the capacity of our services to care and heal.

The Plan

- The Problem
- The Opportunity
- The Solution

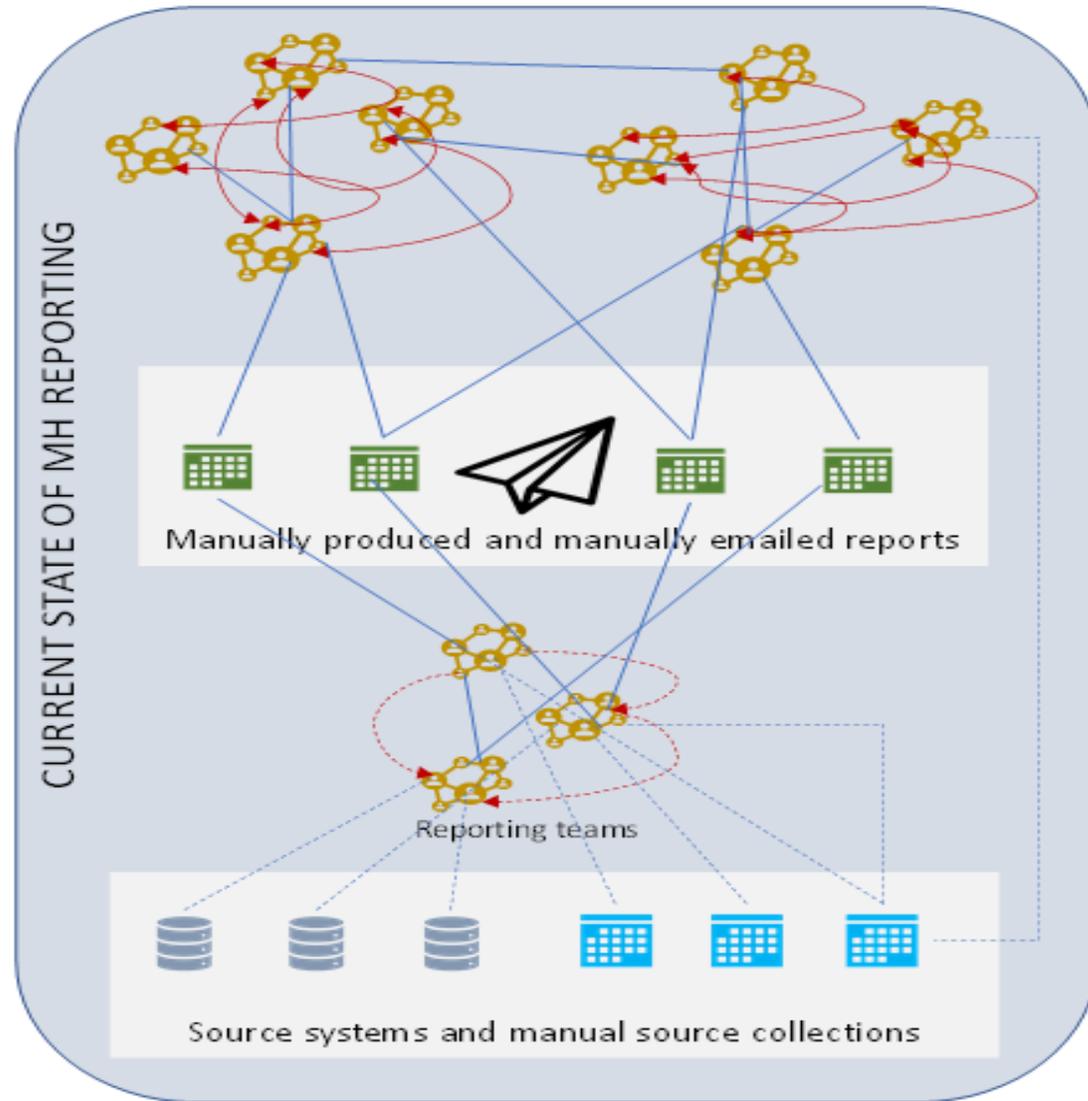

The Digital Landscape of SA Mental Health Services

- Open Architecture Clinical Information System (OACIS)
- Community Based Information System (CBIS)
- Country Consolidated Client Management Engine (CCCME)
- Sunrise Electronic Medical Record (Sunrise or Sunrise EMR)

The Problem

- We couldn't identify where people were in the system
 - No visibility of where people were,
 - i.e. if they were in inpatient services NOT mental health
 - Required multiple systems access to get the data
 - Not able to be proactive about care
 - i.e. if a person is discharged may not know until the report came out
 - No visibility of the complete journey for a person

LEGEND:

- Dashed lines represent background work required to build the report
- Solid lines represent the report delivery. Note that reports can be altered on this journey
- Red lines denote work within the team
- Blue lines denote work between teams or systems

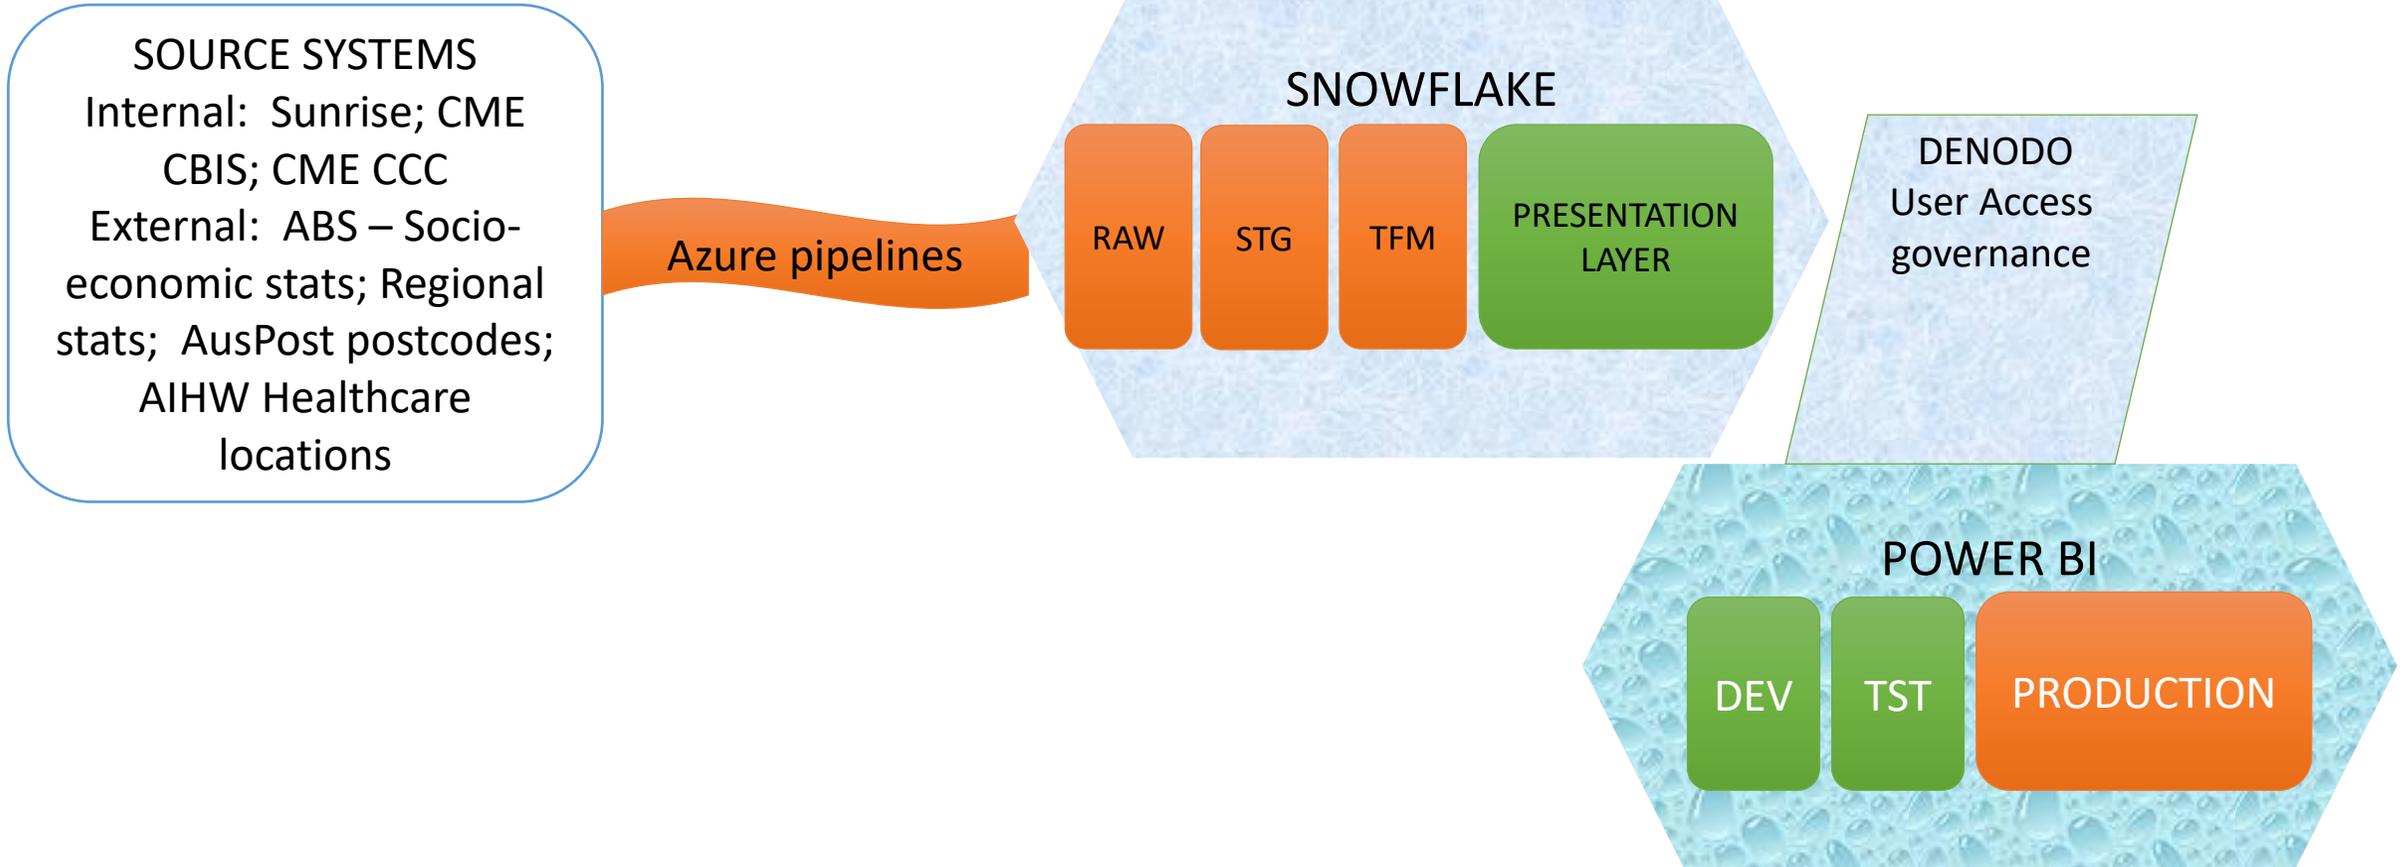

The Opportunity

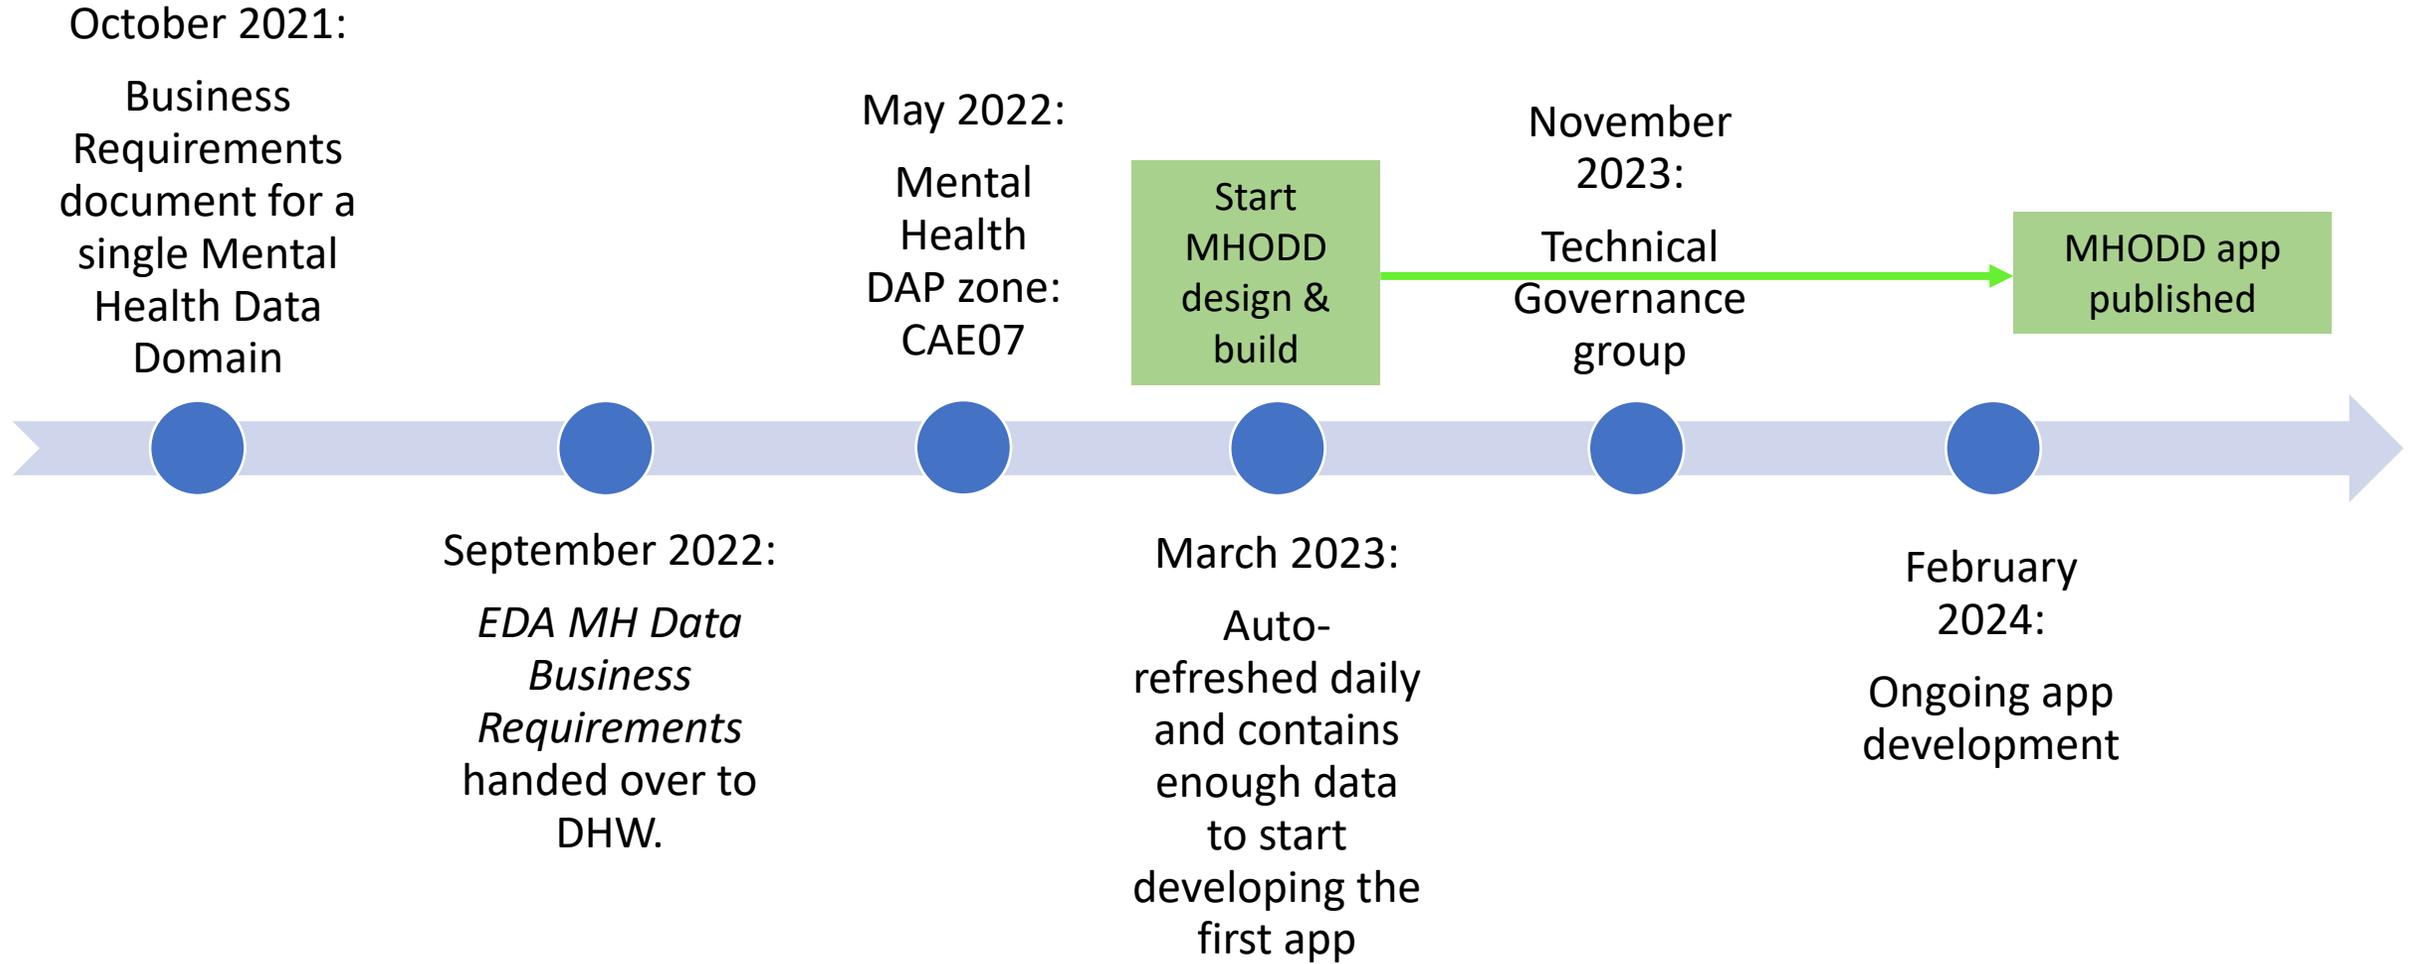

- Build an App that can collate all the data from the systems used into one.

The Build

Build Timeline

The Solution

MENTAL HEALTH OPERATIONAL DATA DOMAIN

Welcome to the Mental Health Data Domain App!

(brought to you by Mental Health Information Management and Performance Measurement Unit (IMPMU))

This app presents a range of analytical data reports for:

- MH Inpatient activity
- MH Emergency activity
- MH Community activity

These are accessed via the left hand menu.

This app is a work in progress and feedback is encouraged. Each report page has a speech bubble that, when clicked, will open a feedback form.

This app is refreshed daily by 8:30am.

MENTAL HEALTH OPERATIONAL DATA DOMAIN

Welcome to the Mental Health Data Domain App!

(Brought to you by Mental Health Information Management and Performance Measurement Unit (MHIMU))

This app presents a range of analytical data reports for:

- MH Inpatient activity
- MH Emergency activity
- MH Community activity

These are accessed via the left hand menu.

This app is a work in progress and feedback is encouraged. Each report page has a speech bubble that, when clicked, will open a feedback form.

This app is refreshed daily by 8:30am.

Latest app updates:

25/07/2025: updates to sunrise NOCC data items is in progress. NOCC reports will be offline from today

June 2025

Changes to the inpatient report to improve report performance and reduce load on the service complete and published. Data extracting is now limited. Please contact via the feedback buttons if this limitation will have an impact for you.

MH Inpatient Ward Occupancy **NEW

YES & CES - text responses have been removed from the data page. If you require this data, please use the feedback button to contact MHODD team

May 2025

LEGAL ORDERS - **NEW includes ability for Community teams to quickly find their

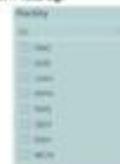

Go back

HANDY HINTS

- The visuals - charts and tables - are all interactive.
- Use filters to target areas/dates of interest. They might be buttons eg:

2023	2024	2025	2026	2027	24 hours	24 hrs	24/25	2024
------	------	------	------	------	----------	--------	-------	------

or drop-down lists eg:

- Clicking on certain areas of a visual will filter the page for that selection. Eg Jan 2024 has been clicked below and that will update all the data on the page for Jan 2024.

Year	2023	2024	2025	2026	2027
Jan	100	100	100	100	100
Feb	100	100	100	100	100
Mar	100	100	100	100	100
Apr	100	100	100	100	100
May	100	100	100	100	100
Jun	100	100	100	100	100
Jul	100	100	100	100	100
Aug	100	100	100	100	100
Sep	100	100	100	100	100
Oct	100	100	100	100	100
Nov	100	100	100	100	100
Dec	100	100	100	100	100

- Remove all your selections, including anything that you may have clicked on, by using the

- Hovering over a visual will display a menu of actions available.

(L-R): drill up one level, down one level, drill all the way, copy as an image, show the full used, focus mode ie zoom out to fullscreen and the ellipse ... provides more such as all data to Excel

- Hovering over parts of a chart displays further info eg:
